

# American Legion Post 116

REISTERSTOWN MARYLAND

Legacy Run Blog – Thursday - August 26<sup>th</sup>, 2010

We left Stevens Point WI promptly at 8AM. Weather was perfect. The British Royal Legion Riders rode with the advanced team this morning. They were excited to ride with a smaller group and perhaps get to ride faster. When we arrived at our fuel stop – the British riders were manning the pumps.

Not too many photo ops this day due to the riding.

When we did get into Milwaukee we pulled over for some unknown reason to a Harley Dealership that was right off the highway. We were all excited to be able to stop and shop and take a break.

Well our surprise was not a pleasant one. Once stopped we were told that it was an emergency stop so that the Milwaukee police could posse up to prepare a major highway closure to ensure our safe arrival at the American Legion.

Royal British Legion Riders are pumping the petrol for our bikes

Squid and a ALR member from Hawaii exchanging information.

ARRIVAL POST 537 Milwaukee, WI.

Did someone say,  
"LUNCH"?

Well with the “Mission” being declared complete and successful it was time to conduct rest and relaxation.

Nothing like a cold one in the hot tub! CB, Steve and Michael decided to break up the Brits gathering and asked if they could join in.

After the Hot Tub and something to eat it was time to prepare for the nights activities.

While we have enjoyed the riding, the socializing with all the friends we have made on all our rides so far, since 2008, we always look forward to the KANSAS party. Not officially condoned but it is official in our minds.

The ALR from Kansas take the time out to put on one heck of a “End of the Ride” party in one of the hotels.

This year there was no exception ride either. We all met at the Kansas hotel after 5:00pm and stayed until late evening. It was in a different hotel then ours so we were smart and took a cab to and from. They bought the beer, the munchies and of course the pizza's.

Of course we all try to pitch in with contributing to the donation jar to relief some of the financial burden but if it wasn't for the Kansas ALR I am sure that it would happen.

Thank you Kansas ALR for another great year!

Squid dancing at the Kansas Party with one of the RBLR dates.

Our favorite DJ from Kansas ALR

And the Mr Custer performance

I didn't know Elvis was from Kansas.

Performing his famous Red Baron song

He is such a ham.

As you can tell by these photos, we had the best of times with all our new Legion Legacy Rider family and we look forward to next year already. The photos for the next day are taken on our day off and have nothing to do with the ride except for taking advantage of the cities that we had the opportunity to visit thanks to the ride. There are many to see and if you'd like to, just contact CB or Squid and we will be happy to share with you.

Thanks for visiting our BLOG and we apologize for its slow completion. TOO MUCH FUN! Until Next Year..
